If you do need advice from a doctor...

Phone appointments

You can make a GP phone appointment instead of attending the GP practice. If you don't need to be examined, a phone appointment can be quicker and easier. If the doctor feels they need to see you, they will ask you to come in.

If the receptionist asks what is wrong with you, please tell them.

They are asking so they can find the best appointment for you.

Reception staff are bound by the same confidentiality rules as doctors and nurses. They are not allowed to tell people outside the practice anything about you.

And if you are unable to attend your GP appointment please

phone and cancel – this means that your appointment can be offered to another patient. Around 4% of appointments are wasted as people do not turn up. This means there are hundreds of wasted appointments across Midlothian each month!
